

M.S.A.D. #30
SCHOOL FIRE DRILLS

EBCD

In order to protect the health and safety of students and staff and in compliance with the provisions of the Life Safety Code, eight fire drills (grades 6-8) and 10 fire drills (grades K-5) will be held annually in each school building. Each head teacher, in cooperation with local fire officials, will develop procedures designed to accomplish the evacuation of school buildings as quickly and efficiently as possible. Two drills are required during the first week of school.

Head teachers shall keep a record of all fire drills held in their schools, stating the date and time the drill was held and the time required for evacuation of the building. This information will be reported to the superintendent on the weekly report.

Staff members will receive an annual orientation to this procedure, and the fire drill procedure will be prominently displayed in each classroom. Head teachers will ensure that each teacher acquaints the students under his care with designated routes during the first week of school.
